

A QUESTION IN THE CREDIT SYSTEM.

Suppose a man in private life, of a moderate means, and with a large fortune, should so conduct his matters, that instead of taking of his means to defray the expenses of his family, he should borrow money for that purpose, and at the end of the year, instead of paying either principal or interest of the debt, still continue to borrow and again borrow, not merely to pay his necessary expenses, but to pay the interest on money already borrowed, and so continue for years, running up a large debt and increasing it by compound interest. What would be said of such a man? Would he not be pronounced insane? It would be the easiest thing in the world to procure a jury of sensible men to declare him to be so crazy as to be unfit to have the management of his own affairs.

It will scarcely be credited that that is the precise policy of the Whig administration of the affairs of this state. We have no state fund, out of which to pay the ordinary, every-day expenses of the government. No provision is made to defray them by taxation. And our new regency at Albany, instead of meeting the question fairly, telling the people the truth, and asking for taxation, for this most necessary of all purposes, are pursuing the ruinous course of borrowing money for that object, and then borrowing money to pay the interest on that already borrowed, and so on, to the end of the chapter. If they should manage their own personal affairs in that way, we should call them mad as March hares, but so to conduct the affairs of the state, for fear that they may lose popularity by recommending a direct tax, is a gross breach of faith and duty toward the people.

However, it has always been a favorite maxim of the Federalists, that "a national debt is a national blessing," and this "blessing," at least, they are determined we shall have, unless prevented by an old-fashioned democratic notion of "out of debt out of danger."

Post Notes to the amount of forty or fifty thousand dollars, and perhaps a much larger sum, are due to-day, and will be protested. On the presentation of a \$10,000 post note at the opening of the Bank this morning, the holder was put off for an answer to 12 o'clock, and then answer in the negative. The excitement, in Wall Street has been very great, of course, and conjectures rife to the real state of the case.

THE MARKET.

The news by the Liverpool, the last arrival from Europe, leaves no doubt of the failure of the crops in that country:

There has been an advance of 3 cents per bushel, on the price of wheat since the election, quotations this week, wheat 62 to 65 cents per bushel, and Flour 5.00 to 5.50 per bbl. and by the accounts we have received from other places, would indicate a very favorable prospect of a more material advance, on the prices of grain, and we would therefore congratulate the Farmers, on the prospect of a fair remuneration for their labor.

No better evidence can be required of the justice of the Democratic cause than the fact that all its enemies seize upon the name. We hear every day of 'Democratic Whigs' and Democratic Antislaverys,' and we expect to read shortly of Democratic Aristocrats, and last of all Democratic Whig Swartwouters from Limbo.

The Baltimore Lyford's Price Current of Saturday last, in speaking of the suspension, recommends the following judicious course:

"It will be incumbent on business men to continue to moderate their desires and expenses—to begin, with their household and family affairs first; strive to be less imitative of those who can afford to indulge in luxury; not to expand beyond their means to pay—economize, as they had begun to do, before the suspension by the banks—and patronize the press for their medium (if it is not a profitable one) all timely information in general is imparted by which the reader may profit; and through it is he apprized of the state of the markets, both home and abroad, which is the greatest desideratum for all men of business to possess."

THE FLOUR MARKET.

We observe every where, flour is rising, in consequence of an expected demand from England.

The New York Evening Post says that the or as received by the Liverpool are to be executed, notwithstanding the advance in price which has taken place in that market since the receipt of the news respecting the unfavorable prospects of the harvest in England. The Express of Thursday says that at least 20,000 bbls. would be taken from N. Y. this week.

The Rochester N. Y. Democrat of the 17th inst. says:—"On the receipt of the news by the Liverpool, wheat immediately rose from 59 cts to \$1.00 a bushel; flour from \$5 to \$5.50. Many think this rather an extravagant advance, considering the uncertainty of any considerable foreign demand, if the price is over \$6 in N. Y. We congratulate our farming friends that they can now realize a living profit on the productions of their industry. 10,000 bbls. flour have recently been bought here for the Canada market, and the Carriage Railroad has been crowded night and day the past week in getting it to the steamboat landing."

In the Baltimore market there has been a very active demand the last week, and the advance from this day week, as shown by the review of the market published to-day, is exactly one dollar per bbl. Grain has risen in the same proportion, sales are now making at an advance of seven, to twenty cents per bushel.

The rise of flour is, of course, predicated entirely on the "expected demand" from England. The last accounts thence were exceedingly unfavorable, as to the harvest; and, to judge from these, there would seem to be no doubt of a "demand" from England. Nevertheless, it is the opinion of some that the corn laws, or rather the hope of their repeal or modification, has something to do—how much, it is impossible to say—in giving coloring to the gloomy reports as to the English harvest. At all events, it is important that flour should not "change hands," on this side the Atlantic, at prices too high to answer this demand from England, which there is certainly reason to anticipate. Let the price not be run up beyond exporting limits; and so shall our great surplus be rendered most available.

FLOUR MARKET.—The amount of Flour in N. York, since the arrival of the Liverpool, is about 190,000 bbls, and on Wednesday was very dull in that city.

The Philadelphia N. American says that the market of that city was swept on Wednesday. The Flour in it at \$6.50. The stock of and however was very light. It is said to have been taken for export.

On Wednesday, sales of Howard street Flour were made in this at \$6.12. Yesterday a parcel of 2000 bbls. Howard street was taken for export at \$6.25, cash. The stock of all descriptions is light. Bal. Patriot.

AN ELOPEMENT.—A Dublin paper says: "A very interesting young lady, niece to a Q. C., eloped a few nights since with a follower of Escalapius. At a late hour a hearse drove up to the mansion of the lady's father, and on a given signal the fair one fluttered through the shrubberies moth like, and reached the arms of her adorer in safety, escorted as he was in the hearse. Pursuit was unavailing, for the hymeneal knot was tied before the locus in quo whether they had fled was discovered."

GOV. PORTER.—The Pennsylvania Enquirer remarks: "It is but justice to state, that the judicious, moderate and Pennsylvania tone of the Governor's proclamation, in relation to the banks, meet with very general approval."

ARMY MOVEMENTS.—The Philadelphia National Gazette of last evening says:—"We have information which states that seven thousand regulars are to be sent to Florida; among them the eighth infantry and a large portion of the artillery, are to go from the northern frontier, and likewise the regiment of dragoons. G. Taylor has been authorized to send to Cuba for a large number of bloodhounds."

TEXAS AND MEXICO.

The Gladiolus, of Vermillionville, (La. state) that a traveller, who passed through that town on the 20th ultimo from Houston, reported that the Morning Star, of Houston, had announced that Mexico had recognised the independence of Texas, and that the event was celebrating when he left, by the firing of cannon from the arsenal.

We publish the above that our readers may know there is such a report in circulation, but have no confidence in it ourselves. Bal. Patriot.

INTERESTING SCENE.

The Oregon Mission, composing 50 persons, departed in the ship Sausanne on Wednesday. Religious service was performed in the Hercules steamer while she was towing the ship down the Bay; and one of the mission, born on the journey from Oregon, was baptized 'Oregon.' The whole scene of taking leave, and mutual prayers for a prosperous result to this pious enterprise to the remotest shores of the Pacific, was highly impressive, and seemed to be the rehearsal of those glorious days when our puritan ancestors were prompted to seek for religious freedom in this new world, the principles of which are now being carried out by extending the blessings of civilization to the utmost bounds of our territory.—N. Y. Star.

FASHIONABLE TAILORING.

JOSEPH W. NEWBURGH, would respectfully inform his old friends and the public in general, that he carries on the above business in all its various branches, one door East of J. I. Smith's Store, where he may at all times be found to attend to all work intrusted to him. He flatters himself it will be done as durable, neat and fashionable, as it can be done in the country, as he intends at all times to keep in his employ good competent workman, and his means to receive the Fashions is amply provided for.

To accommodate his friends in the country, he will take nearly all kinds of country produce.

N. B. One or two apprentices wanted immediately to learn the Tailoring business. Boys between the age of 15 and 16, would be preferred. They must be of good character, as recommendations of industry, honesty, and sobriety, will be required.

Canal Dover, Aug. 15, 1839. H.

ANTON FEMALE SEMINARY.

The Trustees of this institution would respectfully inform its patrons and the public generally, that the school will be opened for the reception of pupils on the 1st day of August next, under the superintendence of Rev. Jno. M. Goshorn, and his lady. Mrs. Goshorn has been engaged in the instruction of young ladies about 12 years—five of which she had charge of the Female Department of the Newark Seminary. The utmost confidence may be reposed in their qualification to conduct the school in such a manner as to give their pupils the advantages of a complete English and Classical education.

TERMS OF TUITION, per quarter of 12 weeks.

First Class in English studies, including Reading, Writing, English Grammar, Modern, Ancient and Universal Geography, with the use of Globes, & Composition. 4 00
Second Class in English, including Natural, Moral, and Intellectual Philosophy, Astronomy, Botany, Mathematics, Natural Theology, Rhetoric, Logic, &c. &c. 5 00
Ornamental Department, Drawing Painting, &c. 6 00

Classical Department, Latin and Greek Languages, together with the French. 5 00 extra
Pupils from a distance will be assisted by Trustees in obtaining suitable places to board. A philosophical apparatus will be procured as soon as possible, for the use of the school. Editors friendly to the cause of education will please give this notice a few insertions.

By order of the Board of Trustees,

THO. S. BONFIELD, Sec'y

June 17, 1839.

DR. WILLIAM EVANS'S SOOTHING SYRUP.

FOR CHILDREN TEETHING.

PREPARED BY HIMSELF.

To Mothers and Nurses.

The passage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting in sleep, and spasms of peculiar parts; the child shrieks with extreme violence, and thrusts its fingers into its mouth. If these precursory symptoms are not speedily alleviated, spasmodic convulsions usually supervene, and some cases to the dissolution of the infant. Mothers who have their little babies afflicted with these distressing symptoms would apply Dr. William Evans's Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady convulsions.

This infallible remedy has preserved hundreds when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the nursery where there are young children, for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease, by opening the pores and heals the gums; thereby preventing Convulsions, Fevers, &c.

Entered according to Act of Congress. Be particular that the label on the box expresses such. The genuine is vended by Agents only.

Agent Dover.

A severe case of Piles cured at 100 Chatham street. Mr. Daniel Spurring of Suresbury, Eden Town, New Jersey, was severely afflicted with Piles for more than 30 years. Had recourse to medicines of almost every description, but never found the slightest relief from any source whatsoever until he called on Dr. Evans, of 100 Chatham street, New York, and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

Extract of a letter of Jonas Snyder, Post Master, Kernsville, Pa., to Dr. William Evans.

Among several cases, the following is found: An elderly lady, who had been 25 years so afflicted with nervous hydrochloric, debility, &c. that for the last 3 years she constantly received medical aid from a respectable physician; but the pressure and pain on her heart and breast, and especially with weakness in her head and on her mind, keeping her discouraged to undertake any thing. In May she commenced using Dr. W. Evans' medicines according to the directions accompanying them. A reaction took place; the pain and pressure in her body was removed; her mind became clear and strong; her spirits perfectly good, and up to this time it is in all respects restored to health, which for the last ten years has not enjoyed.

(Signed,) JONAS SNYDER.

September 7, 1838.

Another recent test of the unrivaled virtue of Dr. Wm. Evans' Medicine.—DYSPEPSIA, TEN YEARS STANDING.—Mr. J. McKENZIE, 176 Stanton street, was afflicted with the above complaint for ten years, which incapacitated him at intervals, for the period of six years, attending to his business, rendered to perfect health under the salutary treatment of Dr. Wm. Evans.

The symptoms were.—A sense of distension and oppression affecting, distressing pain in the pit of the stomach, nausea, impaired appetite, indigestion, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extraordinary degree of languor and faintness; any endeavor to pursue his business causing immediate exhaustion and weariness.

Mr. McKenzie is daily attending to his business, and none of the above symptoms have returned since he used the medicine. He is now a strong and healthy man. He resorted to means of remedial, but they gave all ineffectual. He is willing to give any information to the afflicted respecting the most valuable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

The above Medicine can be procured of all Dr. Wm. Evans' advertised agents in the United States, and throughout the World.

Dr. Evans, in order to prevent the patrons of his Medicine being imposed upon by counterfeits, has had the label of all his medicines entered according to act of Congress. He requests them therefore, to be particular in seeing that the labels contain the following notice: "Entered according to act of Congress, by W. Evans, in the year 1839, in the Clerk's Office of the Southern District Court of New-York."

DR. HUNT'S PILLS.

For Consumption, Dyspepsia, and Liver Complaint.

Reader, are you afflicted with Indigestion, Costiveness, Sour Eructations, Loss of Appetite, Water Rash Pain or Distress at the Stomach, Sickiness after Eating, Languor, Palpitation of the Heart, Lowness of Spirits, Pain in the Head, Breast, Back, and Limbs, Dizziness and Confusion of Sight, a Fear of some impending Evil, Restlessness, a Dislike for Food, with other Nervous Symptoms, bring before you the Picture of the Dyspeptic, and Consumptive patient. Having resolved to remedy them procure immediately a box of DR. HUNT'S PILLS, a safer and efficacious remedy for those dreaded foes of human happiness Dyspepsia, Consumption and Liver Complaint, and the whole train of melancholy affections arising from diseases of the Stomach, Liver, Bowels and Lungs.

Sold at Wholesale, 1 Chatham street, N. York.

DR. HUNT'S CELEBRATED PILLS,

FOR

CONSUMPTION, DYSPYPSIA, AND LIVER COMPLAINT, &c.

As the enjoyment of health depends on preserving the functions of the Stomach, Liver, Intestines and Lungs, in a healthy and vigorous state, through the operations of which the body receives its growth, its nutrition, its support, it can no longer be astonishing that when these viscera are deranged, and cannot perform their proper functions, the whole system suffers and becomes disordered. Knowing this to be a sound and demonstrated fact, in science and experience, Doctor HUNT'S SYSTEM OF PRACTICE is in full accordance with it. He aims to keep the Stomach, Lungs and the Liver, in vigorous and healthy action, as the three great fountains of health and life. For this purpose his pills are compounded of herbs, which strengthen and equalize the action of the heart, and give an impulse or strength to the arterial system, at the same time quicken the action of the absorbent and discharging vessels; and as all the secretions are drawn from the blood, any morbid action, which may have taken place, is removed, all obstructions are overcome, the blood is purified, and the body assumes a healthy state.

These pills give tone to the stomach, increase the appetite, and eminently expel all acid or morbid matter through the excretory ducts into the passage of the bowels. In all cases of Consumption, Indigestion or Dyspepsia, Bilious Affections, or Liver Complaints, Heartburn, Sourness or Acidity in the Stomach, Tightness at the Chest, Loss of Appetite, Sick Head Ache, Pain in the Head, Back, Limbs and Side, Flatulency, Typhus and Scarlet Fever, Putrid Sore Throat, Fever and Ague, or Intermitting Fevers, Gout, Rheumatism, Lumbago, Sciatica, Spasmodic Affections, and The Dolorous Cough, Consumption, Chlorosis or Green Sickness, Obstructions, Chlorosis or Green Sickness, and Rejection of Food, and Costiveness, Colic, whether flatulent or bilious, follow the DIRECTIONS.

Dose.—Take from three to ten pills, till they operate, two or three times daily. The use of the pills must be persevered in till a cure is effected.

INTERESTING AND APPLICABLE TO THE AFFLICTED WITH

DISEASES OF THE STOMACH, OR NERVES:

Such as DYSPEPSIA, either Chronic or casual, under the worst symptoms of restlessness; Lowness of Spirits and General Emaciation; consumption, whether of the Lungs or Liver; LIVER AFFECTIONS, JAUNDICE, both Bilious and Spasmodic Costiveness; Worms of every variety; Rheumatism, whether Acute or chronic together with GOUT, Sciatica, Pains in the Head, Back, Limbs, and Side, Typhus Fever, SCARLET FEVER, Putrid Sore Throat, FEVER and AGUE, Spasmodic Palpitation of the Heart and Arteries, Nervous Irritability, Nervous Weakness, Hysteria, The Dolorous Cough, Female Obstructions, Heartburn, Dropsical Cough, the Common or humid, and the Dry or the Whooping; ASTHMA, Gravel and Dropsy.

The Blood has hitherto been considered by Empirics and others, as the great regulator of the human system, and such is the accredited opinion of the adherents to that erroneous doctrine, that they center themselves with the simple possession of this fallacious opinion, without recourse to the primary sources from whence Life, Health, and vigor emanate, and vice versa, pain, sickness, disease and death. Not so with DR. HUNT whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful members. He contends—and a moment's reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver and the associated organs are the primary and great regulators of health, and that the blood in very many instances is totally disconnected with the first and succeeding stages of disease, and that unless a medicine reaches the root of the disease, the superficial anomaly is only prescribed, serve but as a foil to cover the ravages of deep-rooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing it, is with a firm conviction of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not pretend to ascribe to

HUNT'S PILLS

a supernatural agency, although from positive proof within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has failed,

HUNT'S PILLS

have never been known to fail in effecting a more gratifying result, than that of raising from bed of sickness and thus amply rewarding Hunt for his long and anxious study to procure this perfection in the HEALING ART.

A Medicine that will perform a public benefactor, is a public benefactor. Celebrated Pills have prophylactically been having been successful in curing the country. A Medicine that produces a free circulation of the blood, which cleanses the surface of the body, and which opens the Stomach, Liver, and the associated organs, and which gives a healthy tone to all the Viscera, and which the insensible, removes all morbid action, and imparts a large energy, and vigorously pay the full amount, must consequently settle part, yet money he must have, and that on or before the 20th of this month. So take notice.

JAMES U. PATRICK.

N. B. He still continues to Sell at a rate much lower than can be had at any other place in town at his Store, next door to Mrs. Albert's Hotel.

July 30, 1839.—ns

and under the worst symptoms, lowness of spirit, oppressions after eating, weakness, loss of appetite, general debility, and emaciation are soon removed by the use of the above Pills. DR. HUNT'S PILLS, that insure the destruction of the human family, and its attendant train of horrors, greenish and bloody spit, clammy night sweats, general emaciation, prostration of strength, all will be relieved by the timely administration of Dr. Hunt's Pills, and, taken according to directions, completely removed. In Liver Complaint, Jaundice, Bilious and spasmodic, their influence is truly astonishing. In all cases of Hypochondriacism Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Faint Albut, Seminal Weakness, Indigestion, Flatulency, Heartburn, Badly V. sickness Chlorosis or Green Sickness, Flatulent or Hysterical Paintings, Head Ache, Sea Sickness, Nightmare Gout, Rheumatism, Asthma, The Dolorous, Spasmodic Affections, Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, Noises in the Inside, alternate Flushings of Heat and Chills, Tremor, Watchings, Agitation, Anxiety, Bad Dreams, Spasms,
